

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1. (currently amended): A lighting system comprising:

- a frame member;

- said frame member having a void portion;

- an electrical light source emitter for emitting an electrical light provided further that said electrical light source emitter for emitting an electrical light is a rope light;

- said void for at least partially receiving said electrical light source emitter;

- an eroded transparent or translucent glass member;

- said eroded transparent or translucent glass member disposed such that said electrical light source emitter, when emitting light, substantially contacts said eroded transparent or translucent glass member;

- a reflective opaque glass backing member located within said void portion;

- provided further that said reflective opaque glass backing member does not substantially interfere with the transmission of electrical light from said electrical light source emitter through said eroded transparent or translucent glass member.

Claim 2. (cancelled).

Claim 3. (previously presented): The lighting system according to claim 1 wherein said electrical light source emitter for emitting an electrical light extends

substantially around the void.

Claim 4. (previously presented): The lighting system according to claim 1 wherein said eroded transparent or translucent glass member has a lengthwise dimension, a heightwise dimension, a widthwise dimension, said heightwise dimension and said widthwise dimension at least partially defining, a forward surface of said eroded transparent or translucent glass member and a rear surface of said transparent or translucent glass member.

Claim 5. (previously presented): The lighting system according to claim 1 wherein said eroded transparent or translucent glass member is transparent.

Claim 6. (previously presented): The lighting system according to claim 1 wherein said eroded transparent or translucent glass member is translucent.

Claim 7. (cancelled).

Claim 8. (previously presented): The lighting system according to claim 1 wherein said void at least partially receives said eroded transparent or translucent glass member.

Claim 9. (cancelled).

Claim 10. (previously presented): The lighting system according to claim 1 wherein the frame member is a picture frame.

Claim 11. (previously presented): The lighting system according to claim 1

Patent Amendment 12 April 2006  
Mueller Filed 19 April 2001  
Confirmation 8503  
SN 09/837932

wherein the frame member is a window frame.

Claim 12. (previously presented). The lighting system according to claim 1 wherein said eroded transparent or translucent glass member at least partially retains said electrical light source emitter within said void.

Claim 13. (cancelled).

Claim 14. (cancelled).

Claim 15. (cancelled).

Claim 16. (cancelled).

Claim 17. (cancelled).

Claim 18. (cancelled).
